With Best Greetings to Those in the Trade:

We wish to call your attention to our nurseries as a base of supplies for anything you may need in our line for the coming season.

**PEARS.** All our pears are worked on French Pear Seedlings 7-12 mm. branched whole roots, except some Magnolia and Japan Golden Russet, which are budded on No. 1 Japan Pear Seedlings. Our pears at one year are tall and straight of sufficient height to be cut back to the proper height to form heads for two year old trees. We are strong on Bartletts one year old and other varieties both one and two year old. The price of Magnolia and Japan Golden Russet is the same this year as other varieties.

**PLUMS.** We have a fine lot of Americana Plums two years old and Japan Plums one year old, as handsome as we have ever grown.

**CHERRIES.** Two year cherries run largely to the lighter sizes this year, but promise to make handsome grades.

**PEACHES—One Year.** Never had a finer prospect for a handsome lot. They are now two to three feet high and are straight as arrows.

**PEACHES—June Buds.** A fine stand of strong, healthy seedlings. Over two millions to be budded to Dormants and June Buds. We will bud either of these on contract and give you the choice of any of the varieties in our list. Should varieties be desired not found in our list they may be shipped to us if free from disease and pernicious insects. Contracts for June Buds should be made promptly, as we shall have finished budding for June Buds by the middle of June.
